

Cookie Policy

This site does not use cookies to collect personally identifiable information about you.

However, if you wish to restrict or block cookies that are set as a result of visiting this website, or indeed any other website, you can do this with your browser settings; the Help menu within your browser should tell you how to do this. Useful information about cookies and how to control them on a wide variety of browsers can be found at www.aboutcookies.org.

Please be aware that restricting cookies may impact on the functionality of this website.

This site uses a limited number of third party suppliers to provide specific functionality and these cookies are included in the list below. Further information on the nature of the information collected and the options you have to control these are provided as links in this list.

Cookie name	Purpose
JSESSIONID	Used to store a unique random identifier for each visit to this website. No other information is written to this cookie on your computer/device. This cookie is required by the webserver software to remember certain settings such as whether you have logged into the site. This cookie is destroyed each time you close your browser and all information stored against this unique identifier is automatically deleted from the server 30 minutes after your last access of the website. This cookie is essential to ensure that all website functionality is available to you. For normal visitors no information will be stored in the session and will only be used for administrative access to the CMS (i.e. only used for site administration).
cookies	Used by the website to store the fact you have implicitly agreed to having cookies set on your machine by proceeding past the warning notification. This cookie is set each time you view any page on a site using the Privacy module, and expires 90 days after the date you last visited the site. If this cookie is not set you will see the cookie notification on every page you visit, instead of merely the first one.
remember	Used by the site to remember who would like to remain logged-in to the site even after they close and restart their browser. This cookie is set each time you log in having checked the "remember me" checkbox on the login form, and expires 60 days after the date you first log in with it checked.
TinyMCE_in_content_size	This cookie only exists for administrators of the WP Thompson website and is set by the TinyMCE WYSIWYG editor when an administrator resizes the WYSIWYG editor pane in order to remember how large the administrator would like their WYSIWYG editor pane in future. It expires as soon as the browser is closed. This cookie will not be set for regular visitors of the WP Thompson site.
Google ReCaptcha PEF	Set by Google ReCAPTCHA JavaScript library to store any visitor preferences. This cookie is set when you view a page containing a form with a ReCAPTCHA field in it, and expires after six months. If this cookie is not accepted then you may have to re-set any changed preferences each time you view a ReCAPTCHA as part of filling out a form.
Google ReCaptcha NID SNID	Set by Google ReCAPTCHA JavaScript library to store any visitor preferences. This cookie is set when you view a page containing a form with a ReCAPTCHA field in it, and expires after six months. If this cookie is not accepted then you may have to re-set any changed preferences each time you view a ReCAPTCHA as part of filling out a form.
